

NETWORK MARKETING AS A VEHICLE FOR CREATING WEALTH

“The key word to Wealth is Leverage!”

Network Marketing: Some call it Multi-Level Marketing or just plain MLM. Whatever you call it, as a marketing and distribution model, it's been around for a very long time. Carl Rehnborg was the first entrepreneur to successfully implement a network marketing program in 1945 with Nutrilite Products Inc.

In years past, many business leaders dismissed network marketing as a get-rich-quick scheme, analogous to chain letters and pyramid scams, but those days are gone. Today Fortune 500 corporations flock to do business through network marketing Networks, and Wall Street analysts sing the praises of multilevel sales methods. The industry is approaching \$100 billion in wholesale revenue, \$25 billion in the United States alone. Even Donald Trump and Warren Buffet own network marketing companies!

HOW DOES IT WORK

Network marketing is simply this: A system for marketing and selling products whereby independent team members (or distributors) are permitted to recruit other distributors and to draw percentage commission from their sales, as well as the sales anyone who that person recruits below them. This is what is called a 'downline'.

Today there are thousands of examples across the world of individuals who have retired on passive incomes as a result of Network Marketing. With conventional methods of distribution, up to 80% of the purchase price is spent on advertising, marketing and distribution. With Network Marketing, promotion is done through word of mouth advertising.

the most productive people
earn the most money.
That's Fair!”***

THE BENEFITS OF NETWORK MARKETING

- **Choose when you work.** Start part time, with as little as 7-10 hours per week.

THE DRAWBACKS OF NETWORK MARKETING

As Industry expert Randy Gage says, “Network Marketing is perfect for everybody, but not everybody is perfect for Network Marketing. The only people who lose, are those who quit”. In Network Marketing, the most productive people earn the most money. That's fair.

CHOOSING THE RIGHT NETWORK MARKETING COMPANY

- **The Product.** Is it unique and consumable? Is there a huge and expanding market?
- **The Plan.** Compare compensation plans. This can range from 20% to up to 50%
- **Company Ownership.** Is it privately owned and financially secure, debt free?
- **Training.** What kind of training / development / support systems do they have?
- **Expansion.** Does the company have Global Expansion in their business plan?
- **Results.** What results are other distributors achieving? Get a reference list of distributors and call them.

STATE OF MIND | STATE OF BODY | STATE OF PLAY

Every day, whether we're 23 or 83, we get older. It's a fact of life. But how old we feel is a state of mind.

As we age, our priorities shift towards an increasing awareness of saving for our retirement, taking care of our health, and for many, finally achieving all those life-long goals that we dreamt of so many years ago.

The reality of the situation is that all these things cost money. And by the time we retire, we only have a limited amount of funds from which to enjoy what we hope will be an idyllic lifestyle.

What if you could simultaneously achieve all three outcomes? This trifecta could save you years of time, reduce your future dependence on medicine, and remove the stress and heartache of financial burden.
